- Standard player shall be defined based on the 10 handicap system.
 - Players that have a handicap of 6 or under can be considered a Standard player.
 - Players that have a handicap of 7 can be considered a Standard player or an Open player and will be left up to the discretion of the League Operator.
 - Players that have a handicap of 8 or above will be considered an Open player, unless the player comes from a Standard division within the league system. A player with a handicap of 8 or above from a Standard division can be considered a Standard player and will be left up to the discretion of the League Operator.
- Any player that has cashed at any previous Illinois State Tournament Singles event is NOT allowed to play in the Standard Singles event.

Advanced Singles

ACSISA uses a traditional standard of upgrading the top 4% of an Open field to Advanced. Based on that standard, any player who meets any of the following criteria will automatically be placed in the Advanced Division.

- Any player on the ACSISA State Advanced list.
- At the discretion of the Tournament Committee, any player may be placed in the Advanced Division based on Known Ability “KA”. Any player desiring to play in the Advanced division may be placed in that division at his/her request. Voluntary entry in the Advanced division by a non-advanced or non-master player does not necessarily create future advanced status for that player.
- **AMMENDED** - A State Advanced Singles player that has played five (5) years as an Advanced player at the Illinois State Tournament and has not “finished in the money” can apply to be placed back into the Open division. The player must request and fill out the IL Singles Petition Form and must be sent or emailed to the ACSISA. The board members will then discuss and decide whether to approve or deny the request.
 - Any player that has received an approval from the board to be removed from State Advanced status after June 1, 2017 will be **required** to play in the Open Singles event at the next state tournament. If the player does not play in the Open Singles event and decides to play in the Team and/or Scotch Doubles events, the player will still be considered an Advanced Player for the team.

Master Singles

ACSISA uses a traditional standard of upgrading the top 4% of an Advanced field to Masters. Based on that standard, any player who meets any of the following criteria will automatically be placed in the Masters Division.

- Was deemed to be a Master-level player at the 2017 ACS or BCA National 8-Ball Championships and has played less than two years in the division or has finished “in the money” in either of the last two years in which the player has competed.
- Any Senior-aged player on the ACS or BCA Masters list at the 2017 Nationals.
- Any player on the ACSISA State Masters list.
- Any player on the ACS or BCA Masters list before the Illinois Championships.
- At the discretion of the Tournament Committee, any player may be placed in the Masters Division based on Known Ability “KA”. Any player desiring to play in the Master division may be placed in that division at his/her request. Voluntary entry in the Master division by a non-master player does not necessarily create future master status for that player.
- **AMENEDED** - A State Master Singles player that has played five (5) years as a Master player at the Illinois State Tournament and has not “finished in the money” can apply to be placed back into the

Advanced division. The player must request and fill out the IL Singles Petition Form and must be sent or emailed to the ACSISA. The board members will then discuss and decide whether to approve or deny the request.

- Any player that has received an approval from the board to be removed from State Master status after June 1, 2017 will be **required** to play in the Advanced Singles event at the next state tournament. If the player does not play in the Advanced Singles event and decides to play in the Team and/or Scotch Doubles events, the player will still be considered a Master Player for the team.
